

So you're tired of manually testing your SailPoint applications and reducing the number of errors?

We'd like to introduce you to

At **Amari Kai Technology (AKTech)**, we understand the critical importance of ensuring the security, reliability, and efficiency of your identity governance and administration (IGA) solutions. That's why we offer comprehensive Test Automation services designed to streamline your testing processes and enhance the quality of your SailPoint implementation.

### What We Offer

-  **Tailored Test Automation Solutions:** Our experienced team works closely with you to develop custom Test Automation solutions tailored to your unique SailPoint environment and business requirements. Whether you're deploying new features, upgrading your SailPoint platform, or conducting routine testing, we've got you covered.
-  **End-to-End Testing Capabilities:** From functional testing to regression testing and beyond, we provide end-to-end testing capabilities to ensure thorough coverage of your SailPoint implementation. Our Test Automation frameworks are designed to validate all aspects of your IGA solution, including access controls, user provisioning, compliance workflows, and more.
-  **Accelerated Testing Cycles:** With AKTech Test Automation services, you can accelerate your testing cycles and reduce time-to-market for new features and enhancements. Our automated testing processes enable rapid and reliable validation of changes, helping you achieve faster release cycles without compromising quality.
-  **Scalable and Flexible Solutions:** Whether you're a small organization with a single SailPoint instance or a large enterprise with complex IGA requirements, our Test Automation services scale to meet your needs. We offer flexible engagement models and scalable solutions to support your growth and evolving testing requirements. Whether it's a Proof of Concept (POC) to see what's possible and/or a fully automated SailPoint test suite.
